

# SISALATION®

## The Original and The Best

### Sisalation® Facing Foil Heavy Duty Black Coated Perforated (454)

#### Product Description

Two outer layers of aluminium foil bonded to high density kraft papers, bonded together with a heavy coating of flame retardant adhesive and reinforced with strands of fibreglass in two directions. The outer foil face is lacquered with a matt black finish. The laminate is perforated to provide 11% open space.

#### Applications

Sisalation® Facing Foil Heavy Duty Black Coated Perforated (454) is a Black Coated Heavy Duty perforated reflective foil laminate recommended for use in the lining and lagging of air conditioning ducts, pipes and vessels where acoustic performance criteria are specified.

Due to colour variation in raw materials we cannot guarantee colour match between batches.

#### Specification

When specifying, state the following:

Product Name: Sisalation® Facing Foil Heavy Duty Black Coated Perforated (454)

Duty: Heavy Duty

Application: Facing Foil

#### Physical Properties

Duty before perforation .....Heavy

Emittance .....Reflective

Open space .....11%

Flammability Index .....Low (≤5)

#### Chemical Properties

Do not allow contact with wet mortar or concrete: alkalis' attack aluminium foil.

#### Standard Roll Sizes

|             |                   |                   |                  |
|-------------|-------------------|-------------------|------------------|
| Roll Width  | 1350mm            | 1350mm            | 1350mm           |
| Roll Length | 600m              | 300m              | 60m              |
| Roll Area   | 810m <sup>2</sup> | 405m <sup>2</sup> | 81m <sup>2</sup> |

Other roll sizes available on application.

#### Health and Safety

There are no known health or safety risks associated with this product for applications described in this datasheet.
